- X-Ray compatible backrest
- Shock absorbing, non-marking bumpers
- Foley bag holder
- 4" (10 cm) mattress included
- Ergonomic push handles
- Storage area in base for oxygen E-cylinder tank
- Storage tray for patient belongings
- Permanent IV pole

The Amico Hydraulic Patient Transfer Stretcher (S-H-300) provides caregivers the control they need in the emergency environment. The stretchers can be adjusted to various positions – raising, lowering, Trendelenburg, and reverse Trendelenburg – by actuating the hydraulic pistons. The back section is adjustable through the use of gas springs and the knee gatch can be raised and lowered with an optional manual crank.

The stretcher is made of carbon steel and painted by an electrostatic spray (powder-coat). The base cover is made from injection molded ABS plastic and the locking siderails are made from a combination of steel, aluminum extrusion and plastic parts for increased durability and to facilitate easy cleaning. The back section includes an X-Ray-compatible board.

The stretcher comes complete with an IV pole, bumper wheels and actuator dust covers to protect the hydraulic actuators.

Technical Specifications

Model Number

Model Number	S-H-300

Overall Dimensions

Overall Length	84.5" (214 cm)
Overall Width	33" (84 cm)

Litter Positioning

Trendelenburg/Reverse Trendelenburg	14°
Maximum Fowler Section Inclination	75°
Maximum Knee Section Inclination	35° ± 5

Height Range

Lowest	24.25" (61.5 cm)
Highest	34.5" (88 cm)

Surface Dimensions

Surface Width	25" (64 cm)
Surface Length	75" (191 cm)
Surface Thickness	4" (10 cm)

Weight Capacity & Caster Diameter

Maximum Weight Limit	550 lbs (250 kg)
Caster Diameter	8" (20 cm)

Mattress

Standard Economy Foam Mattress Included. This mattress is without Fire Rating.
Upgraded Mattress with fire rating can be ordered separately and the Part # S-MATT-FM-76254-TRA

Optional Features & Accessories:

- Utility tray
- Overbed tables
- Removable IV pole
