*A*mico

## Procedure & Exam Lights

Deliver care with confidence. Amico's Procedure and Exam Lights are engineered to support clinicians with advanced visual acuity. Surgical-grade LED optics ensure superior shadow control, depth of field, and light intensity, while appropriate color temperatures and CRI allow clinicians to easily differentiate between tissue. Available in various mounting options to provide further convenience.

### Mira LED Exam/Procedure

- 50,000, 65,000, 90,000 LUX
- Endo Mode
- Electronic Focusing

### Gamma 60 LED

- 60,000 LUX
- Adjustable Color Temperature (3500K – 4500K)

### Vega LED Exam

- 80,000 LUX
- Endo Mode
- Compact Design

### Gamma 50 LED

- 50,000 LUX
- Capacitive Touch Controls

Single Configuration

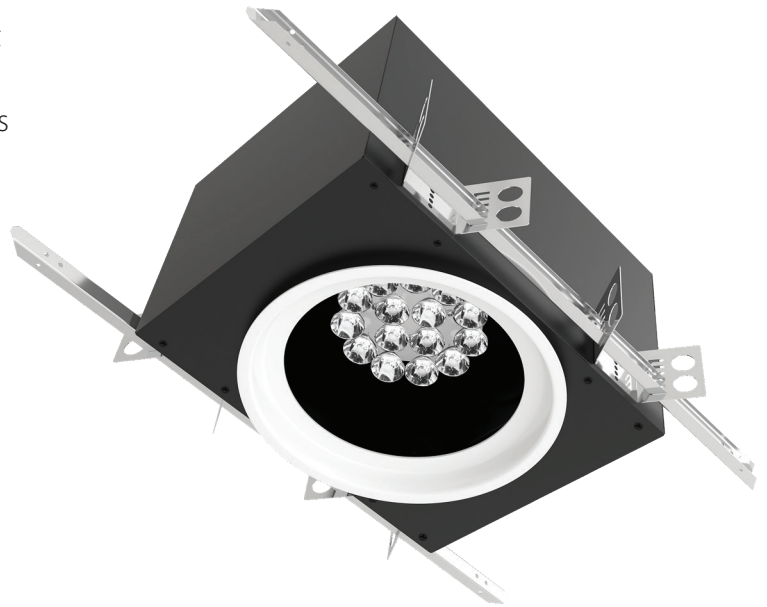

Dual Configuration

## Motorized Exam Light

### Nova LED

The Nova is a fully recessed motorized exam light that delivers 360 degrees of high-level illumination for safe and accurate examinations. The versatile design allows for multiple configurations to maximize light output for any area of the hospital environment.

- 360 Degree Rotation
- 55,000 LUX @ 10'0" Ceiling Height
- Fully Recessed Design
- 3000K – 4500K CCT
- IP65 Ingress Protection
- 95+ CRI
- Dimming: 1%
- Beam Angle:  $D_{10} - 9.1^\circ$

### Capacitive Touch Wall Control Keypad

- Control up to 2 Nova Fixtures
- Low Voltage
- Single-gang

## Task Lighting

A cost-effective solution for your patient room task lighting needs with 30,000 LUX of light, and customizable dimming for everyday use.

- 30,000 LUX @ 50 cm
- 4400K CCT
- 93 CRI

## LED Magnifiers

Amico's LED magnifiers are designed to make demanding visual tasks easier with a wide-angle, distortion-free lens and premium LEDs to illuminate the viewing area for precise and consistent examinations.
